

Lisa Chong

Quantitative Fisheries Center · Michigan State University · 1405 S. Harrison St. · East Lansing, Michigan 48823

✉ chonglis@msu.edu  [lidach](#)  [lidach.github.io/](https://github.com/lidach)

Current employment

Assistant Professor Research 2024 - present
Quantitative Fisheries Center
Department of Fisheries and Wildlife
Michigan State University

Previous employment

Research Associate (Postdoc) 2023 - 2024
Quantitative Fisheries Center
Department of Fisheries and Wildlife
Michigan State University

Education

University of Florida, Ph.D. Fisheries and Aquatic Sciences 2023
Universität Bremen, M.Sc. International Studies in Aquatic Tropical Ecology 2018
State University of New York at Stony Brook, B.Sc. Marine Vertebrate Biology 2016

Technical expertise

Research: Fish population dynamics, fisheries stock assessment, hierarchical modeling, simulation modeling, harvest control rule design, management strategy evaluation, statistics

Programming and scientific computing: R, C++, TMB, RTMB, ADMB, Stock Synthesis, Quarto, LaTeX, data visualization, parallel computing, reproducible workflows with Quarto and Git/GitHub, debugging, Windows/Mac/Linux systems

Stock assessment consultation and reviews

1836 Treaty Waters - Lake Trout. 2026 - present.
Lake Erie - Walleye. 2025 - present.
Center for Independent Experts (CIE) reviewer for SEDAR 84 ([link to review report](#)). 2025.
Lake Erie - Yellow Perch. 2024 - present.
1836 Treaty Waters - Lake Whitefish. 2023 - present.
Wisconsin Lake Michigan - Lake Whitefish. 2024 - present.
1842 Treaty Waters - Lake Whitefish. 2023 - 2024.
Research Track Working Group: 2022 Improving Assessments for Black Sea Bass. 2022 - 2023.

Awards

UF IFAS travel scholarship	2023
GCFI Ron Schmied Travel Award recipient	2021
ICES Early Career Support for World Fisheries Congress	2021
AIRFB WF Thompson Best Student Paper Award	2020
UF SRFC/FFGS Travel Grant	2019; 2023

Peer-reviewed publications

Chong L, Pienaar E, Ahrens R, and Camp E. (2024). Recreational Angler Preferences for, and Potential Effort Responses, to Different Red Snapper Management Approaches. *Conservation Science and Practice*.

Chong L, Siders Z, Lorenzen K, Ahrens R, Camp E. (2023). Global synthesis of effects and feedbacks from artificial reefs on socioecological systems in recreational fisheries. *Fish and Fisheries*, 25(2), 303-319.

*Chong L**, Fisch N*, Borsum JS, Granneman J, Perry D, Love G, Hall-Schard B, Botta R, Lorenzen K, Camp E, Siders Z. (2023). Examining the performance of alternative harvest regulations for short-lived taxa: A case study of Florida Bay scallop management. *Fisheries Research*, 263, 106683. [*Co-first author]

Chong L, Mildenerberger TK, Rudd MB, Taylor MH, Cope JM, Branch TA, Wolff M, Stäbler M. (2020). Performance evaluation of data-limited, length-based stock assessment methods. *ICES Journal of Marine Science*, 77(1), 97-108. [Editor's choice and AIRFB best student paper 2020]

Research Grants

Cahill CL, Colborne SF, Nielsen AN, *Chong L*, Faust M, Holbrook C, Langan L, Mildenerberger TK, and Hvingel C. Unlocking acoustic telemetry datasets using integrated diffusion-advection-taxis modeling. Funding Source: Great Lakes Fishery Commission - Fishery Research. Amount: \$146,847 USD (Project Years: 2026-2028).

Technical reports and outreach documents

ICES. (2023). Eleventh Workshop on the Development of Quantitative Assessment Methodologies based on LIFE-history traits, exploitation characteristics, and other relevant parameters for data-limited stocks (WKLIFE XI). ICES Scientific Reports. 5:21. 74 pp.

Camp EV, *Chong L*, Collins AB, Abeels H, Mille K, Hall-Scharf B, Zangroniz A, Jackson S, Krueger S, and Blanco V. (2022). An update on Florida's Artificial Reefs: recent research and what it means for Florida. EDIS Document. Fisheries and Aquatic Sciences Department, UF/IFAS Extension, Gainesville, FL.

Chong L, Collins AB, Abeels H, Braswell A, Zangroniz A, Ropicki A, Jackson S, and Camp EV. (2022). Artificial Reefs in Florida 101 – effects on fisheries: Part 4 of an Artificial Reef series. EDIS Document. Fisheries and Aquatic Sciences Department, UF/IFAS Extension, Gainesville, FL.

Chong L, Collins AB, Abeels H, Braswell A, Zangroniz A, Ropicki A, Jackson S, and Camp EV. (2022). Artificial Reefs in Florida 101 – effects on fishers (and divers): Part 3 of an Artificial Reef series. EDIS Document. Fisheries and Aquatic Sciences Department, UF/IFAS Extension, Gainesville, FL.

Chong L, Collins AB, Abeels H, Braswell A, Zangroniz A, Ropicki A, Jackson S, and Camp EV. (2022). Artificial Reefs in Florida 101 – effects on fish: Part 2 of an Artificial Reef series. EDIS Document. Fisheries and Aquatic Sciences Department, UF/IFAS Extension, Gainesville, FL.

Chong L, Collins AB, Abeels H, Braswell A, Ropicki A, Jackson S, and Camp EV. (2022). Artificial Reefs in Florida 101 – why are they built? Part 1 of an Artificial Reef series. EDIS Document. Fisheries and Aquatic Sciences Department, UF/IFAS Extension, Gainesville, FL.

Camp EV, *Chong L*, Collins AB, Sipos M, Mille K, Hall-Scharf B, Jackson S, Abeels H, Krueger S, and Blanco V. (2022). An update on Florida's Artificial Reefs: recent deployments and trends. EDIS Document. Fisheries and Aquatic Sciences Department, UF/IFAS Extension, Gainesville, FL.

Chong L, Mille K, Abeels HA, Blanco V, and Camp EV. (2021). Artificial reefs: how do they affect people?. EDIS Document. Fisheries and Aquatic Sciences Department, UF/IFAS Extension, Gainesville, FL.

Presentations

CONTRIBUTED

Chong L, Camp EV, and Lorenzen K. November 2023. Challenges in rebuilding the Gulf of Mexico greater amberjack: insights on recruitment, projections, and productivity shifts. ICES Methods Working Group. East Lansing, Michigan.

Chong L, Siders ZA, Karnauskas M, Lorenzen K, Ahrens R, and Camp EV. August 2023. Incorporating uncertainties about ecological and socioeconomic aspects to improve management and placement decisions of artificial reefs. American Fisheries Society Annual Meeting. Grand Rapids, Michigan.

Chong L, Pienaar EF, Ahrens RNM, and Camp EV. May 2023. Recreational Angler Preferences for, and Potential Effort Responses, to Different Red Snapper Management Approaches. 43rd Annual Meeting of the Florida Chapter of the American Fisheries Society. St. Augustine, Florida.

Chong L, Siders ZA, Karnauskas M, Lorenzen K, Ahrens R, and Camp EV. February 2023. Incorporating uncertainties about ecological and socioeconomic aspects to improve management and placement decisions of artificial reefs. World Recreational Fishing Conference 10. Melbourne, Australia.

Chong L. January 2023. Performance evaluation of data-limited, length-based life-history and stock assessment methods. Workshop 11 on the Development of Quantitative Assessment Methodologies based on Life-history traits, exploitation characteristics, and other relevant parameters for data-limited stocks (WKLIFE XI). Virtual talk.

Chong L, Pienaar EF, and Camp EV. August 2022. Recreational angler preferences for red snapper fisheries management options in the Gulf of Mexico: a stated preference choice analysis. American Fisheries Society Annual Meeting. Virtual talk.

Chong L, Siders ZA, Fisch NC, and Camp EV. November 2021. Spatial considerations can determine net socioecological effects of artificial reefs on recreational fisheries and their management. Gulf and Caribbean Fisheries Institute Conference. Virtual talk.

Chong L and Camp EV. October 2021. Incorporating uncertainties about ecological and socioeconomic aspects to improve management and placement decisions of artificial reefs. Think Tank Seminar. Virtual talk.

Chong L, Siders ZA, Fisch NC, and Camp EV. September 2021. Spatial considerations can determine net socioecological effects of artificial reefs on recreational fisheries and their management. World Fisheries Congress. Virtual talk.

Chong L and Camp EV. April 2021. Review of the socioecological effects of artificial reefs in recreational fisheries. 41st Annual Meeting of the Florida Chapter of the American Fisheries Society. Virtual talk.

Chong L and Camp EV. November 2020. Spatial considerations can determine net socioecological effects of artificial reefs on recreational fisheries and their management. Florida Artificial Reef Summit 2020. Virtual talk.

Chong L and Camp EV. September 2020. Can spatial considerations determine socioecological effects of artificial reefs on recreational fisheries and their management?. American Fisheries Society Virtual Annual Meeting. Virtual talk.

Chong L, Camp EV, Lorenzen K, and Ahrens R. November 2019. Effects of artificial reefs on recreational fisheries: what we don't know might hurt us. International Symposium on Stock Enhancement and Sea Ranching (ISSESR).

Chong L, Mildener TK, Rudd MB, Taylor MH, Cope JM, Branch TA, Wolff M, and Stäbler M. September 2019. Performance evaluation of data-limited, length-based stock assessment methods. International Council for the Exploration of the Sea (ICES) Annual Science Conference. Gothenberg, Sweden. Poster.

Chong L, Mildener TK, Rudd MB, Taylor MH, Cope JM, Branch TA, Wolff M, and Stäbler M. May 2018. Performance evaluation of data-poor stock assessment methods. Working Group on Length-Based Methods for Population Studies and Stock Assessment. Bremen, Germany.

TECHNICAL

Chong L and Brenden T. November 2025. Analysis of Fishery-Independent Data: Model-Based Approach. Presentation to the Lake Erie Standing Technical Committee, Lake Erie Committee, and Great Lakes Fishery Commission. Virtual talk.

Chong L and Brenden T. June 2025. Discussion of Inclusion of Datasets in the New Models. Presentation to the Lake Erie Yellow Perch Task Group, Lake Erie Standing Technical Committee, Lake Erie Committee, and Great Lakes Fishery Commission. Ann Arbor, Michigan.

Chong L and Cahill CL. November 2024. Status of Stock Assessment and Training in the Great Lakes. ICES Methods Working Group. Copenhagen, Denmark. Virtual talk.

Chong L, Cahill CL, and Brenden T. October 2024. Yellow Perch data overview and conflicts. Presentation to the Lake Erie Yellow Perch Task Group, Lake Erie Standing Technical Committee, Lake Erie Committee, and Great Lakes Fishery Commission. Ann Arbor, Michigan.

Chong L and Cahill CL. August 2024. QFC updates on stock assessments in RTMB for Lake Whitefish. Virtual presentation given to 1842 Treaty Waters stock assessment biologists.

Lorenzen K and *Chong L*. August 2022. Visioning Phase - Situation Assessment, Review, and Research Priorities. Greater Amberjack Visioning Insights Workshop. New Orleans, Louisiana. [Co-speaker].

Workshop attendance

ICES Methods Working Group. 18 - 22 November, 2024. Copenhagen, Denmark.

Advanced stock assessment with RTMB. 26 February - 1 March, 2024.

ICES Methods Working Group. November 13-17, 2023. East Lansing, Michigan, USA.

Workshop II on the Development of Quantitative Assessment Methodologies based on Life-history traits, exploitation characteristics, and other relevant parameters for data-limited stocks (WKLIFE XI). January 16-20, 2023.

Decision Analysis in Natural Resource Management Workshop. University of Washington. September 21-25, 2021.

Numerical Computing for the Natural Resources TMB Workshop. University of Washington. September 23-28, 2020.

Advanced school on multispecies modelling approaches for ecosystem based marine resource management in the Mediterranean Sea, Italy. July 30 - August 3, 2018.

Professional service

Fisheries and Aquatic Sciences Graduate Student Organization treasurer 2020-2022

Fisheries and Aquatic Sciences Graduate Student Symposium Committee member. 2019-2022

SFRC Fall 2020 Grad Gathering Organizing Team 2020

Teaching

CLASSROOM TEACHING (GUEST LECTURE):

Population Fish Dynamics, Universität Bremen (2018)

FAS 6339C: Advanced Quantitative Fisheries Assessment, University of Florida (2025)

FW 891: Statistics for Fisheries and Wildlife Management and Ecology, Michigan State University (2025)

Peer-review contributions

I currently serve as a reviewer for the following journals:

Fisheries Research, Bulletin for Marine Science, ICES Journal of Marine Science, Ecological Modelling, Marine and Freshwater Research, Canadian Journal of Fisheries and Aquatic Sciences, Fisheries Management and Ecology, North American Journal of Fish Management, Ecology and Society
